

## COSTARS® Customer Online Storage & Retrieval System

Informatix' full-featured COSTARS® imaging and archiving system automatically captures, dynamically indexes, and archives documents and other media – all without changing your existing applications or operating environment. With COSTARS®, **images retain the exact content and 'look and feel' of the originals.**

Informatix developed COSTARS® to handle the massive volumes of case documents generated by the State of California legal, financial management, and tracking processes. With COSTARS®:

- Finding documents and other media is quick and easy using our query-based document search and retrieval interface.
- Content is archived in Adobe .pdf format, enabling fast access and retrieval.
- Bar code and file transfer technology delivers some of the fastest indexing in the industry

### **COSTARS®** *Smart Solution for Paper-Intensive Environments*

## Get Up and Running Fast

Informatix works with you to define your requirements and determine whether COSTARS® is the right fit for your document imaging needs. Informatix' services include:

- Project management
- Technical support
- Customer service and support
- Training
- Backlog Conversion

*"Did you know management of paper consumes approximately 20% of each staff member's available work time?"  
(Gartner Group)*

# COSTARS®

## COSTARS® Offers a Hosted or Standalone Solution

- More than 7,000 users across California ship, store, search, retrieve, and print business documents using COSTARS®.
- Our dedicated imaging team processes more than 1.3 million images per month.
- State-of-the-art Document Management Center in Sacramento, CA is the hub of our hosted document imaging operations.
- Skilled and experienced technicians help you implement our standalone solution at your site.
- Cost is based on storage volume; you control the cost.
- No license fees.
- No 'per click' charges.
- No servers or scanners to buy.
- No software to install and maintain.

### Advanced Features

COSTARS® is the perfect entry into digital document storage for firms that do not want to go into the scanning and indexing business. COSTARS® provides:

- Easy integration with existing applications and business processes
- State-of-the-art web-based user interface
- Scalable and open architecture
- Dynamic application security
- Safe storage; fast restoration
- **24x7x365 document availability**

### Document Sharing

Eliminate photocopying and interoffice mail routing. Any worker with the right set of privileges can access COSTARS® from a workstation within the network. No more hunting for files! Instead of waiting weeks to receive files, COSTARS® users access them instantly. Our customers tell us this enables them to provide a much higher level of customer service. In fact, they consider document sharing to be one of COSTARS®'s greatest benefits.
