

## Consulting Services

Since our beginning in 1986, Informatix has grown into a premier IT solutions and services company, enjoying an excellent reputation for delivering successful technology and project management solutions to the private and public sectors. Our reputation is our most valued asset. Over the last 20 years, Informatix has developed enduring relationships with our clients and demonstrated consistently high performance.

### Commitment to Our Customers

Informatix continues to grow in the competitive IT services market by offering an exceptional depth and breadth of experience, professional, dedicated staff with outstanding skills, and a commitment to finding innovative and cost-effective solutions to meet our customers' technology and business needs.

### Proven Methodologies

A key factor in Informatix' success is the use of effective methodologies, industry standards, and best practices that have been validated through many successful projects. Informatix' consultants have comprehensive training and deep experience in key disciplines including business process reengineering and project management methodology (PMI/PMBOK).

### Exceptional Staff

Our consultants excel in their ability to work in complex situations and motivate people to contribute to team efforts to gather and analyze information. We've been on both sides of the client-consultant relationship. We value the expertise everyone brings to the table. Our consultants collaborate closely with clients to leverage skills and experience to achieve objectives.
